# Spacecraft Charging and Nanosats

Fabrice Cipriani\*<sup>1</sup>

<sup>1</sup>Fabrice Cipriani (ESTEC/TEC-EES) – Keplerlaan 1, 2200AG, Noordwijk, Pays-Bas

## Résumé

We provide a brief overview of the scope of ESA/TEC-EES activities with a focus on surface charging of spacecraft and the corresponding detrimental effects than can be expected. The emphasis is put on charging in Low Earth Orbit relevant to nanosats.
